

## Activating Emergency Alerts Cellular Devices

### **ANDROID**

- (For most Samsung devices) From default text message app:
  - Text Message Settings
    - Emergency Alert Settings
      - Ensure Extreme, Public Safety, Severe, State and Local Alerts are on
  - Additional alerts can be customized in weather apps
  - For more information, contact your carrier
- Others:
  - Apps & Notifications or search “emergency alert” in the search bar for settings
    - Advanced
      - Emergency Alerts
      - Ensure Extreme, Public Safety, Severe, State and Local Alerts are on

### **iPHONE**

- Settings
  - Notifications
  - Scroll to the screen
  - Government Alerts, turn alert “ON”
- Your Apple Watch can receive these alerts if your iPhone alerts are turned on and is nearby, or your Apple Watch is connected to a Wi-Fi network. The Apple Watch Series 3 will receive alerts without your iPhone nearby.
- For more information, contact your carrier.
